SUSTAINABLE

100% recyclable and made from recycled material and biodegradable glue, our edgeboard is an environmentally friendly packaging product.

WATER RESISTANT COATING

Optional water resistant edgeboard coating protects your packaged product in moist or humid conditions.

CUSTOM COLORS AND PRINTING

Advertise your brand with a custom color and/or logo or add caution striping or patterns. Coated or uncoated options available.

VARIOUS EDGEBOARD STYLES

Various styles of edgeboard including standard L-Type, puzzle-cut, wrap-around (U & V cut), U-profile and self-adhesive.

Types Of Cardboard Edge Protectors

Edge board

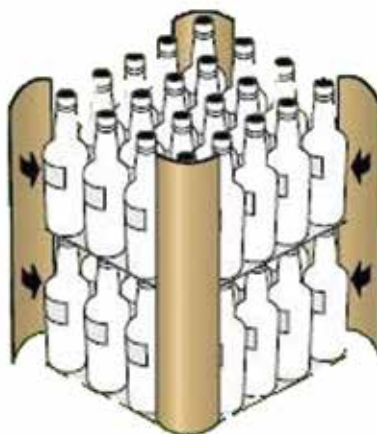

Advantages of Edge Protector Have proven their value in strengthening and stabilizing loads affecting the edges or sides of shipment. Combined with strapping, edge protectors help to eliminate skids and damages. Double stacking will provide extra strength to maintain their structures. Internal Protection. Reinforcing corrugated paper boxes to ensure safety during transit and improve additional stacking strength.

Cutt	Width 1 (mm)	Width 2 (mm)	Thickness (mm)	Length (mm)
Cosed	30 -100	30 -100	2 -10	300 - 6000

C-PROFILES FOR ROUND CORNERS

Conitex sonoco Ltd. has now developed a solution for round corners, which have traditionally been difficult to protect. With C-profiles you can easily protect and strengthen such things as paper rolls, textiles, bottles, cans, drums etc. The products are applicable also for the many shapes of furniture industry.

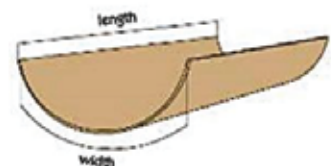

The surface can be provided in brown, whi or aluminum colour and also with printing.

Colour	White, Brown, Green, etc.

¹ Other sizes available upon request

² Printing option also available

width.....110mm
Thickness.....2-5mm
Length.....50-3000mm

Types Of Cardboard Edge Protectors

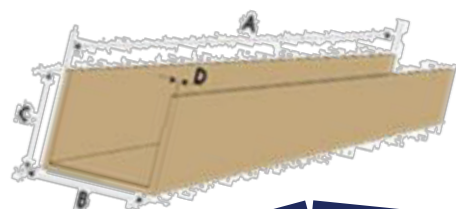

U-Profile

For Innovative and Environmentally Friendly Packaging

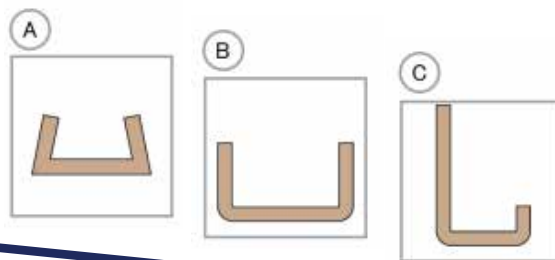

As the current trend in packaging is to eliminate unnecessary materials and find a green solution, through product development we are trying to help our customers reach that goal.

The U-profile is a 100% laminated carton board product designed to protect surfaces from scratches and from heavy impact. The dimensions and strength can be chosen from a wide range according to the need.

Naturally the package still has to look appealing, so we can provide the product in brown or white and even with printing.

Quality	Sides	Width C+B+C	Thickness (mm)	Length (mm)
Bio	Closed	50-300	2-10	500-6000

Flat board

The flat boards offered by us are recyclable cardboard products that are developed to effectively meet the replacement needs of material like hardboard, MDF, Chip Board that are hard to recycle. Its superior and overall quality makes it perfect to be used for:

USES

- Used as the spacer between a delicate surface
- Provide side and floor protection in containers and trains
- For meeting the strength demands of Packages

FEATURES

- Can be provided as per requirement.
- The adhesive, which we are using is low moistureabsorbing and food grade.
- Our product is compatible to a wooden product.
- Providing exceptional strength (Stacking & Compression).
- 100% Biodegradable, Recyclable & Eco friendly.
